***“Webinar on Industrial Chemistry: Rubber and Green Chemistry -2K25”***

**Date: 30/12/2025**

**Presided by: Shree Swaminarayan Institute of Pharmacy, Tajpur**

**Faculty Co-ordinator: Mr. Kanti Paregi**

**No. of Participants: All students of B. Ph Semester 01**

**Faculty Participants (If any): All**

## Summary of Webinar on

### Industrial Chemistry: Rubber and Green Chemistry -2K25

A guest lecture webinar on the topic “Industrial Chemistry: Rubber and Green Chemistry” was organized at Shree Swaminarayan Institute of Pharmacy College, Tajpur. The session aimed to provide students with knowledge about the industrial application of rubber and the importance of green chemistry in sustainable development. The resource person explained the manufacturing process, application, and environmental aspects of rubber industries. The concept of green chemistry and eco-friendly chemical practices was also discussed in details student actively participated in the webinar and gained valuable insights into industrial chemistry. The session was informative and interactive, enhancing students understanding of modern industrial practices faculty members and pharmacy student attended the program enthusiastically. The webinar conclude with a vote of thanks to the speaker for sharing valuable knowledge
